

Fee guide

This guide has been produced to give you an idea of our fees for the most popular treatments. Please note that this list is not exhaustive and is intended as a guide only. Cost of treatment is subject to variation based on complexity, materials used and duration of treatment. Before starting on any treatment, we will explain and discuss the range of options open to you and help you decide which is best suited to you, your budget and your lifestyle. Based on your decision, we will then provide you with an estimate in advance.

If you have any questions about our fees, please ask – we'll be happy to help.
